Learning Exploring Contributing GIFU UNIVERSITY

MORI Hideki, M.D., Ph.D.
President of Gifu University

Ideals

Under the motto of "Learn, Explore, Contribute," Gifu University is a national university strongly rooted in the local community. This is the land where the cultures of East and West Japan have come together to produce and share diverse cultural and technological assets. These traditions have been passed down to the university, and today, Gifu University continues to be a place for the gathering and exchange of people and knowledge, for the integration of systematic and advanced knowledge, and for both scholarly and humanitarian development. The university returns the products of these activities to society and sends forth talented graduates into the community. We take pride in thus contributing to advances in culture and academia and to the development of a safe and bountiful society.

Aims

- 1) Our first priority is the cultivation of human resources. To this end, we conduct education replete in both quality and quantity and strive to furnish students with an affluent education and reliable and sophisticated expertise, a broad outlook and comprehensive powers of discernment, and excellent communication skills. We strive to train independent and internationally minded professionals ready to contribute to society in a variety of fields.
- 2) Gifu University strives to maintain high standards of research to serve as the foundation of outstanding education. We also aspire to be a hub for advanced, original research in fields such as life science and environmental science, and to return the products of research to society.
- 3) Gifu University draws on diverse academic and research capacities to tackle regional issues and help stimulate local society. We believe in having a strong presence in the community.
- 4) Gifu University strives to fully utilize its rich educational and research features to promote internationalization of the university, bolster the international affluence of students and faculty members, and stimulate local society.

Programs

Programs of Faculties

Faculty of Education

The Faculty of Education trains teachers and prepares them with the professional skills, qualifications, and also the versatility for successful careers in education. Undergraduate curricula are geared towards education in schools and education for students with special needs.

- Training Course for School Teachers
- Training Course for Teachers at Schools for Special Needs

URL <http://www.ed.gifu-u.ac.jp/~kyoiku/fore/fore.html>

Faculty of Engineering

The Faculty of Engineering trains both specialists proficient in individual areas of expertise and integrated engineers boasting an assortment of skills. The department trains students in a variety of engineering fields to graduate with both the professional skills and systematic knowledge necessary to engineering as well as the human sensitivities that allow for unique insight into nature, culture, and society.

- Department of Civil Engineering (3 courses)
- Department of Mechanical Engineering (2 courses)
- Department of Chemistry and Biomolecular Science (2 courses)
- Department of Electrical, Electronic and Computer Engineering (3 courses)

URL <http://www1.gifu-u.ac.jp/~eng/en/index.html>

Faculty of Regional Studies

Gifu University is the only national university in Japan to boast a regional studies department. The Faculty of Regional Studies at Gifu University represents a unique integration of academic disciplines supporting students' pursuit of a range of matters as varied as policy, industry, the environment, welfare, and culture. The goal of the department is to advance and resolve regional issues and to train graduates who can help to create both a local and global society full of cultural richness, harmony, and increased ease of living.

- Department of Policy Studies (2 divisions)
- Department of Cultural Studies (2 divisions)

URL <http://www1.gifu-u.ac.jp/~forest/english.html>

School of Medicine

The Gifu University School of Medicine is dedicated to training outstanding medical researchers, nurses, and physicians ready to serve both the local and global community. The department's ideology is based on the pillars of education, research, and clinical practice. Education in nursing and medicine is conducted by a large number of faculty members and teaching staff who are actively progressing and achieving results in first-class research and sophisticated clinical practices. The School of Medicine has pioneered a tutorial system and offers a clinical clerkship program, both of which are nationally acclaimed. In the tutorial system, students practice independent learning by solving problems of their own devising. During clinical clerkships, students experience the ultimate practical training and learn clinical practices from the standpoint of an attending physician.

- Medicine (21 courses)
- Nursing (4 courses)

Faculty of Education

Faculty of Regional Studies

Programs of Graduate Schools

Graduate School of Education

The Graduate School for Teaching Professionals aims to equip practicing teachers with the tools to contribute as educational leaders in their schools to the development and improvement of current educational practices.

The Faculty's graduate school provides courses of study and conducts research in the fields of Japanese language education, social studies education, mathematics education, science education, music education, art education, health and physical education, home economics education, technology education, English education, and special needs education.

(Graduate School for Teaching Professional)

- Teacher Education Course (4 courses)
- Master's Degree Program

- Supporting Psychological Development Course (3 courses)
- Major in Subject-Integrated Education (4 courses)

URL <http://www.ed.gifu-u.ac.jp/~kyoiku/fore/fore.html>

Graduate School of Regional Studies

The Faculty of Regional Studies offers two concentrations at the graduate school level : ① Policy Studies which investigates the formation of ecosystems and environmentally conscious recycling -oriented social systems primarily from the standpoint of social structure, and ② Culture Studies which examines the formation of human cultures and self-sufficient communities primarily from the perspective of social behavior.

(Master's Degree Program)

- Policy Studies (3 courses)
- Cultural Studies (2 courses)

URL <http://www1.gifu-u.ac.jp/~forest/english.html>

School of Medicine/University Hospital

Graduate School of Medicine

The Graduate School of Medicine strives towards the establishment of an internationally acclaimed system of advanced training in medical care and related sciences and its implementation in clinical practices of biomedical research. The school promotes creative and interdisciplinary cutting-edge research and endeavors to train tomorrow's regional and global leaders who will carry medical sciences into the future.

Medical Sciences (Doctoral Degree Program)

- Molecule and Structure (8 courses)
- Disease Control (10 courses)
- Neuroscience (9 courses)
- Tumor Control (9 courses)
- Medical Management (8 courses)

Regeneration and Advanced Medical Sciences (Master's and Doctoral Degree Programs)

- Molecular Regeneration (3 courses)
- Regeneration Technology (2 courses)
- Applied Regeneration (2 courses)

Nursing (Master's Degree Program)

- Nursing Education (1 course)
- Nursing Practice (3 courses)

Graduate School of Engineering

The Master's Degree Program in Engineering offers education in state-of-the-art technologies in a variety of fields and trains students to become outstanding engineers and researchers. The doctorate program offers advanced and specialized education to train engineers and researchers who harbor creative ingenuity, capability, and a variety of skills for application and development.

(Master's Degree Program)

- Civil Engineering Division (4 courses)
- Mechanical and Systems Engineering Division (4 courses)
- Chemistry Division (3 courses)
- Electrical and Electronic Engineering Division (3 courses)
- Biomolecular Science Division (4 courses)
- Information Science Division (4 courses)
- Materials Science and Technology Division (3 courses)
- Human and Information Systems Division (4 courses)
- Mathematical and Design Division (3 courses)
- Environmental and Renewable Energy Systems Division (4 courses)

(Doctoral Degree Program)

- Mechanical and Civil Engineering Division (2 courses)
- Material Engineering Division (2 courses)
- Electronics and Information Systems Engineering Division (2 courses)
- Environmental and Renewable Energy Systems Division (4 courses)

URL <http://www1.gifu-u.ac.jp/~eng/en/index.html>

Graduate School of Applied Biological Sciences (Master's Degree Program)

The Graduate School of Applied Biological Sciences welcomes students who have gained a solid and well-rounded academic foundation through their undergraduate studies and offers them training in the advanced scientific principles and techniques of the specialist.

- Division of Applied Life Science (2 courses)
- Division of Agricultural and Environmental Science (4 courses)

URL <http://www1.gifu-u.ac.jp/~abios/eng/index.html>

United Graduate School of Agricultural Science (Doctoral Degree Program)

Formed through an alliance among Shizuoka University, the United Graduate School of Agricultural Science (UGSAS) of Gifu University is a distinctive organization of research and education dedicated to advances in agricultural sciences-including fields concerned with bio-resources, bio-production, and the bio-environment and bio-industries in Japan and overseas. We hope to serve the development of the central Japan (Chubu) region, and we also welcome students from abroad.

- Science of Biological Production (2 courses)
- Science of Biological Environment (2 courses)
- Science of Biological Resources (3 courses)

URL <http://www1.gifu-u.ac.jp/~rendai/eng/>

Faculty of Engineering

Faculty of Applied Biological Sciences

United Graduate School of Veterinary Sciences (Doctoral Degree Program)

The United Graduate School of Veterinary Sciences (UGSVS), which offers a four-year doctoral program, was established at Gifu University in collaboration with the Obihiro University of Agriculture and Veterinary Medicine, Iwate University, and the Tokyo University of Agriculture and Technology. The UGSVS strives to contribute to the progress of veterinary medicine and related sciences by equipping students with expertise and practical skills in veterinary medicine. We train original and pioneering researchers and technical experts ready to serve the community on numerous fronts. As part of our efforts to promote cooperation and serve the international community, the UGSVS welcomes students from abroad.

- Veterinary Sciences (4 courses)

URL <http://www1.gifu-u.ac.jp/~ugvphdhp/english/index.html>

United Graduate School of Drug Discovery and Medical Information Sciences (Doctoral Degree Program)

This unified graduate school brings together the vast and varied talents in medicine and life sciences at Gifu University with the expertise that has led to achievements in new drug discovery at Gifu Pharmaceutical University. We strive to train researchers and technical experts who will engage in state-of-the-art medical treatment and drug development and who are able to conduct inspections and first-class research at businesses and government organizations dealing with pharmaceuticals, cosmetics, and food commodities. We are dedicated to analysis and development based on medical information with the theme of developing new drugs.

- Medicinal Sciences (2 courses)
- Medical Information Sciences (2 courses)

URL <http://www.souyaku.gifu-u.ac.jp/english/>

Special Programs for International Students

The International Student Center offers the following courses to the visiting international students of Gifu University.

- Japanese Language Course
- Japanese Language and Culture Studies Course
- Japanese Society and Culture Program
- Summer School Program
